

# 10-YEAR LIMITED WARRANTY

**Thank you for your purchase of EnduroShield surface protection!**

PCT Global warrants that the EnduroShield will remain water repellent (water bead angle remaining greater than 70 degrees) on clean glass for a period of 10 years from the date of receipt provided by your dealer.

Conditions: EnduroShield must be professionally or factory applied to new glass prior to coming into contact with any contaminants. EnduroShield must be maintained as per the manufacturer's instructions to validate and maintain the warranty.

This warranty is solely for the EnduroShield treatment, not the glass or any other components.

If you believe the treatment is not visibly water-repellent on clean glass within the warranty period, send a contact request including your name, warranty codes, and a brief explanation to [serviceusa@enduroshield.com](mailto:serviceusa@enduroshield.com). If it is determined that an area which has been correctly maintained has not remained water repellent, the manufacturer will gladly arrange replacement product to re-coat the affected area. The manufacturer reserves the right to inspect the glass in order to determine that the product has been properly applied and maintained in accordance to the agreed Care Instructions.

Please note your warranty has already been registered, there is no requirement to mail in this certificate.
